

# Random Numbers for Student Submissions

Marc Los Huertos

September 1, 2017

## Random Numbers

Please use one of the random numbers assigned to you for each assignment. You can use the assign numbers in any order and for any assignment you like.

	First	1	2	3	4	5
1	Brooke	25124	26659	45070	42893	14398
2	Minah	61909	60346	15041	86408	35477
3	Tory	37384	38979	26090	30518	25175
4	Valentina	90359	91789	90905	57948	34070
5	Allison	22644	64226	42554	35846	41438
6	Kyle	28636	83339	22991	76771	82901
7	Bebe	57975	66354	36257	57808	28379
8	Caroline	52294	11790	48726	93267	44160
9	Kihara	26869	16772	40252	46156	61296
10	Meily	98159	87098	20158	24972	39605
11	Katherine	17276	77793	88994	40169	86021

Question: What are the chances that two or more people might have the same random number? This is something taught in probability and a foundation to fully appreciate statistics.
